

# In2Lutions - Our Packages

## Basic data acquisition

Your cost-effective Industry 4.0 upgrade

In 2 days to data acquisition

We collect the data from your Siemens S7 PLC and make it available via a common interface.

- Up to 100 parameter sets per second
- From a S7 data source
- In database or file (Excel, CSV, XML, etc.)

**Starting from € 2,000 \* plus VAT**

## Individual data acquisition

Your individual Industry 4.0 upgrade

In approx. 1 week to extended data acquisition

Extend your basic parameters with ...

- Additional data sources
- Acquisition of further parameters
- Acquisition in higher frequencies
- Pre-processing of the data acquired
- Output to an individual interface

**Starting from € 10,000 \* plus VAT**

## Individual workshop and integration

Joint individual workshop with your process knowledge and our competence in automation and software development

In approx. 2 weeks to the developed solution

- Audit of the existing system landscape
- Joint development of use cases in a workshop
- Extensive technical advice
- Integration of the solution into your system through connection to your interfaces

**Starting from € 25,000 \* plus VAT**

\* Orientation value for a coating system of medium size, depending on the individualization effort.
